# Background

- ◆ Business Regulatory Impact Analysis Work Group established in March 2001
- ◆ Purpose as stated in March TAG presentation:
  - ◆ Estimate number and type of businesses potentially affected
  - ◆ Gauge how businesses likely to be affected
  - ◆ Develop and consider alternative compliance requirements

October 4, 2001

# Overview of Tasks and Progress

- ◆ **Done:** Developed maps of the current and proposed regulatory processes, identifying activity and decision points a company may face
- ◆ **Almost Done:** Developed a list of tasks/activities associated with the activity/decision points in the maps
- ◆ **In Progress:** Provided feedback on the “Initial Screening Process” (formerly, “small emitters concept”)
- ◆ **In Progress:** Categorization of chemicals by use, process and industry sectors

October 4, 2001
